

Affordable uniprocessor server for small businesses  
and multi-location enterprises

## IBM *@*server xSeries 206

---

### Highlights

---

- **Take advantage of innovative server technology at an entry-level price**
- **Leverage flexible configurations and availability on demand for distributed environments and growing business needs**
- **Enjoy new features that help simplify deployment and improve usability and maintenance**

The IBM *@*server® xSeries® 206 offers value, innovation and usability at affordable prices for small businesses and workgroups. New features help lower IT costs and accommodate growth.

#### Affordable innovation

Help lower total computing cost while optimizing performance:

- *New simple-swap Serial ATA drive models can be connected and disconnected easily—usually without a service call.*

- *New IBM ServeRAID™ 7e enables you to install and configure RAID 0 or 1 without additional adapters.*
- *New systems management functions include ASF 2.0, which provides highly secure, remote power-on and off control.*

#### Flexibility for growth

Configure an x206 solution with features that enable future growth. New Intel® Pentium® 4 processors double the speed of previous server generations. Hot-swap SCSI models increase availability as your needs grow. And support for the Remote Supervisor Adapter II helps increase availability with virtual network control as much as 24x7.

#### Easy to deploy, easy to run

Exclusive to the x206, integrated ServeRAID 7e enables RAID 0 and 1 right out of the box. And the improved server design provides ease of access without compromising security.

<sup>1</sup> Maximum internal hard disk and memory capacities may require the replacement of any standard hard drives and/or memory and the population of all hard disk bays and memory slots with the largest currently supported drives available. When referring to variable speed CD-ROMs, CD-Rs, CD-RWs and DVDs, actual playback speed will vary and is often less than the maximum possible.

## xSeries 206 at a glance

<b>Form factor</b>	Tower, rack/4U
<b>Processor</b>	Intel® Pentium® 4 Processor up to 3.2GHz/800MHz front-side bus
<b>Number of processors</b> (std/max)	1/1
<b>Cache</b> (max)	1MB L2
<b>Memory</b> <sup>1</sup> (std/max)	256MB/4GB PC2700/PC3200 DDR standard (model dependent)
<b>Expansion slots</b>	2 PCI-X, 3 PCI
<b>Disk bays</b> (total/hot-swap)	4 non-hot-swap SCSI, 3 hot-swap SCSI, 2 simple-swap SATA (optional 4)
<b>Maximum internal storage</b> <sup>1</sup>	587.2GB <sup>2</sup> SCSI, 320GB SATA, 640GB SATA optional
<b>Network</b>	Integrated 10/100/1000 Ethernet
<b>Power supply</b> (std/max)	340W 1/1
<b>Hot-swap components</b>	Hard disk drives (select models)
<b>RAID support</b>	Integrated IBM ServeRAID 7e (RAID 0,1)
<b>Systems management</b>	IBM Director, Alert Standard Format 2.0, optional IBM Remote Supervisor Adapter II, ServerGuide and optional Remote Deployment Manager
<b>Operating systems supported</b>	Microsoft® Windows® Server 2003 Standard Edition/Enterprise Edition, Windows Small Business Server 2003, Windows 2000® Server/Advanced Server, Red Hat® Linux, SUSE LINUX, Novell NetWare, OS 4690
<b>Limited warranty</b> <sup>3</sup>	1-year onsite limited warranty
